Coordinated care

Most Oregon Health Plan members get their health care from local coordinated care organizations (CCOs). CCOs:

- Work with all types of health care providers in your community: doctors, dentists, counselors, hospitals, pharmacies and more
- Work with you to get the care you need
- Help you when you have problems finding the right care
- Help you manage long-term conditions, such as diabetes and high blood pressure.

What is the Oregon Health Plan?
The Oregon Health Plan (OHP) is for people who can’t pay for health insurance on their own. Oregon and the federal Medicaid program pay for OHP members’ health care costs. OHP covers medical care, dental care and behavioral health care (mental health care and substance abuse treatment).

Can I have OHP?  You and your family can have OHP if you:
- Live in Oregon
- Meet OHP’s income limits. Examples of income limits that qualify (as of March 2017):
  Adults (age 19-64) in households that earn up to:
  - $1,387 a month for a single person
  - $1,868 for a family of two
  - $2,829 for a family of four

  Children (age 0-18) in households that earn up to:
  - $4,128 a month for a family of two
  - $6,253 for a family of four

  Pregnant women in households that earn up to:
  - $1,910 a month for a single person
  - $2,571 for a family of two
  - $3,895 for a family of four

Other facts also help decide who can have OHP. Examples include age, citizenship, other health care resources and disability status. The best way to find out if you can have OHP is to apply.
